

## HRC Psychiatry Treatment Form

Routine follow-up appointments are an essential part of effective outpatient psychiatric care. I understand that to be considered an active patient of Dr. \_\_\_\_\_'s practice at HRC, I must attend routine follow-up appointments at intervals to be determined based upon my clinical situation.

I also understand that if I have not been seen for 12 months or more, my chart may be closed and I may no longer be considered an active patient of Dr. \_\_\_\_\_.
